Safe Management Measures for Events at the HDB Common Areas
With Effect From 4 May 2022

The organiser must ensure that the following Safe Management Measures are implemented:

- Mask-wearing is required for indoor settings and is optional in outdoor settings. If tentages are set up such that the outdoor area becomes substantially enclosed, it will be considered as an indoor setting. Participants are encouraged to wear their masks even when outdoors to protect themselves and others, especially in crowded areas.
- For events (except funeral events) that may exceed 500 participants at any one time, Vaccination-differentiated SMM (VDS) checks are required. Where such events are held in open venues, event organisers should set boundaries to conduct checks. Please refer to <https://go.gov.sg/vdsmminfo> for more details on the requirements.
- The event must comply with the prevailing Safe Management Measures at the point of the event. Please visit <https://www.gobusiness.gov.sg/safemanagement/sector/> for the applicable Safe Management Measures for the specific event (e.g. ESG's advisory for retail events, MCCY's advisory for religious gatherings, NAC's advisory for live performances). The prevailing Safe Management Measures will supersede any of the guidelines above.

For Organiser

I have read the above requirements and agree to abide by them. I am aware and acknowledge that a breach of any of the requirements may be an offence under the Covid-19 (Temporary Measures) Act 2020, the Infectious Diseases Act 1976 or the relevant subsidiary legislations. Such offences may be punishable with a fine and/or imprisonment.

I am aware that the Town Council reserves the right to terminate the event permit if any of the above requirements are breached, and that no notice period will be given.
